

Services Plus strives to inspire new and existing customers through a simple question: What can we do for you? It is our goal to meet the customer's needs and to discover new innovations that will positively impact their company as well as our own.

We went to a long standing customer and asked them what they were having a hard time getting done. The customer could not find a partner able to wrap large quantities of single roll bath tissue at a competitive cost. Our team went to the drawing board to figure out the best solution to their need. After one attempt at finding and obtaining the equipment we needed, which fell through, we found a solution in Central America. We purchased and shipped the equipment to our location. As soon as it was shipped to our facility, in-house personnel began the refurbishing and modifying process. Within 13 weeks from the date of the customer inquiring, the equipment and production line was up and running and producing 1.5 million rolls on time.

Since the acquisition of this particular equipment, we have been able to successfully aid many promotions and retail products for the past 15 years! We are very proud of this particular outcome and the doors that it has opened for future endeavors. This and everything else we do can only be contributed to the dedication we have to meet our customer's needs with innovative solutions.
